A.C. DANDY

DANDY EASY CHARGE **FLEX POST™ EV CHARGING STATION, PEDESTAL STYLE**

Model #LEVC-FP-1

- EEMAC 3R enclosure (for indoor or outdoor use)
- Specifically designed as a 'level 2' compact style, weatherproof, flexible post, electric vehicle, pad mount, pedestal style charging station ideal for public parking lots, condominium sites, highway rest centres etc.
- Ideal for use where collision from vehicles or snow removal etc. occurs. Flexible body bends when hit & returns to vertical position
- Base is sized 7 3/8" wide x 7 3/8" deep & designed to fit up to existing pedestals with 6" x 6" bolt square to allow for quick fit up
- Polymer elastomeric flexible material for maximum durability & corrosion resistance
- Supply cable is designed as a bottom entry into base assembly for termination through side hand hole
- Charger is fitted with rear cable hanger to allow for easy stowing of cord and plug
- CSA certified assembly

NOTES

- Standard cord length is 18' (25' is optional)
- Rated -30°C to +50°C
- Dual rated back to back units are available
