"HANDY" TEMPORARY POWER PEDESTAL Model #S-F

- EEMAC 3R enclosure for indoor or outdoor use
- Heavy duty handy permanent or portable power centre type power pedestal
- Typically used for construction sites or where portable power is required for displays, emergency shelters, tent camps, kitchens etc.
- Rugged metal construction sized 12" H x 7" W x 6" D
- Safety yellow powder coat finish
- Four 5mA duplex ground fault outlets each with individual 10kAIC moulded case circuit breakers, can be easily reset from under side of roof without removing covers
- Receptacles are 15A or 20A 120V 5mA duplex type complete with patented Dandy model #DR45-1 Handy Hoods and weatherproof covers
- Large steel base provides stability on flat or uneven surfaces - bolt down capability
- Safety soft machine formed corners on roof and base for added safety complete with top lifting handle for ease of relocation
- Designed to stow and wrap supply cable around when storing
- Interior cable grip makes for tight permanent cord clamp reducing cable pull-out
- Assembly suitable for 1 phase 120/240V or optional 3 phase 120/208V supply
- Fully CSA/UL certified assembly
